

NOTE:
The data shown on this map was collected on 5/13/2019 through 5/19/2019.

TAGA:
EPA conducted air sampling using the Trace Atmospheric Gas Analyzer (TAGA) on May 13, 2019 to May 19, 2019. The TAGA analyzed the air samples for benzene, toluene and xylene. The TAGA air sampling results were compared to the Texas Commission on Environmental Quality (TCEQ) short-term Air Monitoring Comparison Values (AMCVs) and found no exceedances of the short-term AMCV for toluene or xylene. The TAGA air sampling results found exceedances of the short-term AMCVs for benzene (0.18 ppm) only on May 16, 2019 adjacent to the ITC facility. This information has been shared with unified command and local officials.

Substance	CAS #	Short-term AMCV Health (ppb)
benzene	71-43-2	180
m/p-xylene	179601-23-1	1700
o-xylene	95-47-6	1700
toluene	108-88-3	4000
